

CDS 1000 Cryogenic Monitor

Highly Accurate and Reliable
Cryogenic Measurement Display

Turbinex, Inc. is a leader in the design and manufacture of reliable and accurate turbine flow metering equipment, electronic monitors, and accessories. All of our products are engineered, manufactured, and calibrated using premium quality materials by a skilled engineering team, using state-of-the-art equipment.

The **CDS 1000 Cryogenic Monitor** is an effortless, field programmable complete delivery system that accurately computes and displays actual flow parameters in real time, in digital and graphic form. The system operates seamlessly with our TMC Cryogenic flow meters to deliver proven results for low-temperature requirements. The CDS 1000 monitor is front keypad programmable and allows for custom ticket setup, and linearization for enhanced metering accuracy.

The CDS 1000 monitor can also be equipped with our handheld, wireless MZ320 Bluetooth Printer for effortless ticket printing.

Included with the CDS1000 Cryogenic Monitor is a 1000 ohm temperature probe for accurate temperature monitoring.

CDS 1000 Features

Output:

(2) Form C 2 A Relays

4-20mA for rate, Bluetooth, and RS232

Display: backlit 240x128 graphical screen

Temperature: -40°F to +125°F

Signal Input: 0-2500 Hz, 50mV RMS; 10 Hz, optional dual pickup

Sensor Inputs:

Temperature: RTD or 4-20mA loop

Pressure: 4-20mA loops

Printing:

Hand-held, wireless printers

Multiple tickets

Custom ticket set up

Data Sheet

CDS 1000

- A. Rate Indicator
- B. Temperature Indicator
- C. Displays "Grand Total" (Non-resettable)
- D. Displays "Batch Total" (Resettable)
- E. Indicates "System Maintenance Alarm"

Specifications

Performance Data	
Linearization	10 point
Sensor	Platinum 1000 ohm
Internal Power	NimH battery pack
Input Power	9-26 VDC (polarity insensitive)
Testing	System alarm log for fault identification
Maintenance	Automatic maintenance reminders
Materials	
Weight	3lbs
Dimensions	9.75" x 7.5" x 3.75"
Approvals	CTEP/NTEP
Additional Information	
Factory refurbishment with one (1) day turnaround is available	

Support and Service

Our full-time, dedicated service group offers 100% trustworthy support and recertification for flow meters — whether our own or a competitor's brand. Our meter proving services are performed by our trained technicians and the latest testing equipment.

Custom meters and instrumentation options for your application are readily available. Our products are always in stock and ready for immediate shipment, typically within 24 hours.
